

TFT GLOBAL^{inc.}

Progressive Solutions

The Mission

To create a legacy of unsurpassed service, integrity, and innovation.

The background of the slide features several thick, flowing yellow swooshes that curve across the page, creating a sense of movement and energy.

The Objectives

Grow Responsibly building long-term relationships with our customers.

Invest in the development of our team inspiring **Passionate People**.

Build a **Solid Reputation** as the progressive quality supply-chain solution.

The slide features three decorative yellow swooshes that curve across the background. One swoosh starts from the left and curves upwards towards the top right. Another swoosh starts from the left, curves downwards, and then loops back up towards the right. A third swoosh starts from the left and curves downwards towards the bottom right.

Welcome to TFT

Since 1989 we have partnered with manufacturers as a seamless extension of their operation. This has allowed our clients to grow with minimal risk while maintaining the highest quality standards.

Ask our customers what they admire about TFT Global and they will talk about our commitment to our core values of reputation, people, and growth.

We are strategically located across North America, aligned with flexible resources, and equipped with innovative technology to bring you the ultimate in quality supply-chain efficiency.

Service

Recognized as “best-in-class” for accuracy and on-time delivery. We are the production-support specialist offering flexible & cost-effective solutions giving you the competitive edge needed to increase your market share.

SEQUENCING
SERVICE PARTS
CONTAINER MANAGEMENT
INVENTORY CONTROL
SUBASSEMBLY
KITTING
REPACK

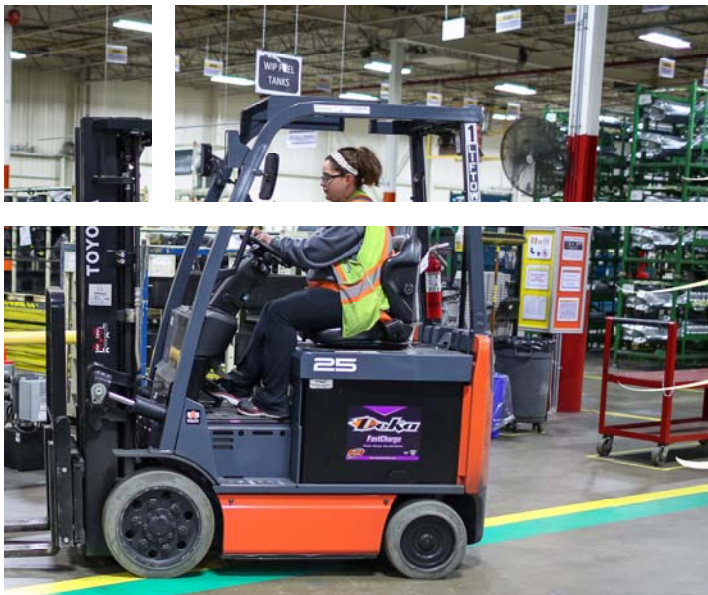

My Senior Manager, has the opportunity to visit many plants. In conclusion of his visit here, it was communicated that I have the benchmark in ESEP activity. This was accomplished with the efforts of TFT and the support that was provided by TFT.

OEM Quality Engineering Manager

Integrity

From automotive, to healthcare, and construction to industrial supplies, there is a good chance TFT Global has provided critical supply-chain services to the delivery of products you use every day.

WAREHOUSING
SUPPLY-CHAIN ANALYSIS
TRANSPORTATION SERVICES
SUPPLIER MANAGEMENT
YARD CONTROL
ROUTE DESIGN

... TFT Global has operated through a number of significant changes to our operations and continued to provide my team with exceptional service and logistics performance. TFT provided unwavering support, under less than ideal circumstances, during our transition.

OEM Materials Manager

Confidence

We understand the profound impact a quality issue has on your product line, your manufacturing line, and your bottom line. We rapidly deploy a skilled workforce and a detailed Containment Validation Procedure to ensure your reputation is our priority.

SORTING

REWORK

CONTAINMENT

FINAL VEHICLE VERIFICATION

LABELLING PROGRAMS

PACKAGING DESIGN

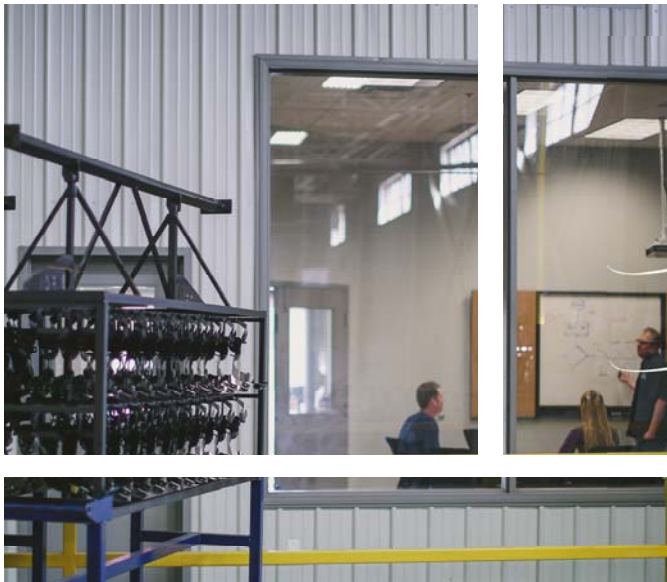

As a Quality Representative, my preference for containment companies is TFT Global. They respond quickly and efficiently to issues and requests as needed. The management team works diligently with inspectors to make sure training and procedures are adhered to.

Rob Walker, Quality Representative

Innovation

Exceed traditional containment methodology and lean disciplines and lead the way. From start-up to controlled obsolescence we can support with warehouse design, process mapping, quality audits, IT integrations, and customized training programs.

LEAN MANAGEMENT
FLOOR PLAN DESIGN
EQUIPMENT PROCUREMENT
PROGRESSIVE SOLUTIONS
MANPOWER PLANNING
SIZING MODELS

An AAR quality audit was performed here over the last couple days... We scored a 96% overall on the audit – our highest ever score on this audit. Thank you for your efforts in helping us in our vehicle handling quality, and for achieving this great score!!!

Terminal Manager, Auto Warehousing Co.

Beyond Green

Environmentally responsible business practices are in place to manage the day-to-day green initiatives. Our progressive solutions ensure a green approach is considered in every continuous improvement opportunity we embrace.

- Facilities equipped with 6 Lamp T5 fixtures (5.65 KwHr) reducing electric usage by approximately 49%.
- Reduced over 6440 shipments and 97,000km through freight consolidations and floor plan designs in a single year.
- Developed our IT systems to completely automate our sequencing operation and reducing overall paper requirements.
- Providing renewable solar electricity back to the Ontario Hydro Electric grid since 2010 with panels on our busiest plant.
